

# Frontend Developer

## Jose Garcia

I have a strong background in web development and recently completed my studies at Edinburgh College where I gained the skills and confidence to apply my knowledge in building websites, designing user interfaces, optimizing performance, creating responsive designs, and maintaining code. I am proficient in HTML, CSS, and JavaScript, and also have working knowledge of React, PHP, and SQL. With a previous experience in sports coaching and education, I bring excellent communication, problem-solving, and teamwork abilities to my work as a developer. I enjoy turning ideas into well-written code and I'm excited to contribute to innovative projects in frontend development.
